

# One Problem

WizTheMc

Don't wait for them to say  
That you is free  
I can't be late  
I got my dreams  
I'm way to baked  
Just let me stay  
Just for one day  
I will say why  
Yeah I'll say why

My medicine  
Is your intelligence  
I fall in love  
Never hesitant  
Wanted all  
And you had everything  
Everything  
You had everything

Love me like that  
Can't be right back  
I know its hard to go  
When the summers over  
And your heart just falls

I got one problem  
She a baddie  
She always down  
Got some henny  
The problem is what I'm about to solve  
I'm down to ride  
Or whatever it is  
That you wanna do  
I been around the world  
But now there's no need to move  
Yeah  
No need to move  
Let's go to my room  
You know what I want  
Yea  
I just want you

It's all said and done  
But I'm not done saying  
Why the fuck I'm here  
Guess I'm done playing  
I put the mask off  
No breaks like nascar  
Sky ain't the limit  
I still aim like nasa  
Go ahead and ask 'em  
'Cause I ain't got the answers  
Looking at my wall  
Still got way too many questions  
Way too much to do  
But I don't feel like action  
Everything so new

I'm just looking for the exit

Love me like that  
Can't be right back  
I know its hard to go  
When the summers over  
And your heart just falls

I got one problem  
She a baddie  
She always down  
Got some henny  
The problem is what I'm about to solve  
I'm down to ride  
Or whatever it is  
That you wanna do  
I been around the world  
But now there's no need to move  
Yeah  
No need to move  
Let's go to my room  
You know what I want  
Yea  
I just want you
