

Other Side

WizTheMc

Take me to the other side
Take me across the road
Don't tell me about these other guys
Tell me if you stoned
Take me to the other side
Take me across the road
Don't tell me about these other guys
Tell me if you stoned
Tell me when you going

I said that I gotta go
Wish you'd be here
But I know that you got your own
Life
I'd take you
Wherever
You want
If you down
To meet me tonight
Thought it was working
Guess I had it
All wrong in my mind
All wrong in my mind

Maybe you can take me
To the other side
Maybe you will break me
Before I arrive
Maybe you can take me
To the other side
Maybe you will break me
Before I arrive

Take me to the other side
Take me across the road
Don't tell me about these other guys
Tell me if you stoned
Take me to the other side
Take me across the road
Don't tell me about these other guys
Tell me if you stoned
Tell me when you going

Yeah
Blessed to be breathing
Used to text in the evening
Used to talk everyday
Had no stress
With my demons
With you
I could leave 'em
It was you I believed in
The truth I was seeking
But the truth was beneath it
Damn

Fell in love

To quick
Again
Tell me what
Is wrong with me
Fell in love
To quick
Again
Tell me what
Is wrong with me

Take me

Take me to the other side
Take me across the road
Don't tell me about these other guys
Tell me if you stoned
Take me to the other side
Take me across the road
Don't tell me about these other guys
Tell me if you stoned
Tell me when you going
