

Purple Clouds

WizTheMc

I wonder if I'll ever get where I wanna be
Wonder if all of this is just something that I do for me
Back in august I decided that I'll do my own beats
Now I feel ready to show the whole fucking world that I'm here
Been in TO where I had my face and word on the streets
Been working ever since I heard my first words on a beat
Too many blessings can't care about a curse that's on me
Used to have too many burdens
But I'm blessed that I'm free
The sun is setting
Light is falling
While I'm passing the weed
Drinking wine and asking God
Why you really chose me
Why you really chose me
Yea You really chose me

Show me purple clouds

The sun is out
The sun is
Show me purple clouds
The sun is out
The sun is
Show me purple clouds
The sun is out
The sun is
Show me purple clouds
The sun is out
The sun is

Show me purple clouds

Let's take a ride
North, west, east or south
Take some bottles
Make some music
And smoke some loud
I don't need no tv
I don't need a couch
I just need
I just need
Something do
Give me time
Give me more
Give me life
Give me force
Take my time
Take it all
'Cause
I don't want Control
I don't want Control
I cannot control
I cannot control
I cannot control where I go
I can not control
I can not control
I can't

Show me purple clouds
The sun is out
The sun is out
Show me purple clouds
The sun is out
The sun is out
Show me purple clouds
The sun is out
The sun is out
Show me purple clouds
The sun is out
The sun is out
The sun is out
