The muse is my medicine
I keep it cool
When I let her in
She is in love
With my melanin
We kick it late
Like we letterman
Never been friends
We just wanted the benefits
Yah
She down to party
But we broke
Like on E
That mean we got more sleep
I just wanted more weed
Yeah
I just want more weed
More weed

I still smoke too much girl
Never gave no fucks girl
You know that
I'm gonna take this too the end
I still smoke too much girl
Never gave no fucks girl
You know that
I'm gonna take this too the end

Yeah
Ey
To the end
That don't mean that the means is mean
It makes sense
Gotta keep all the fiends to me
I try to bend my thoughts
To keep you free
My pen got lost
But you still here
Not used to this
No
You said
You want be friends
I cannot be like that
Told you I might be back
But you don't want nun' tho
You said
You want be friends
I cannot be like that
Told you
I might be back
But you don't want nun' tho

I still smoke too much girl
Never gave no fucks girl
You know that
I'm gonna take this too the end
I still smoke too much girl

Never gave no fucks girl
You know that
I'm gonna take this too the end
