

Hold up  
Let me call some  
Let me holla  
She so handsome

If money equals happiness, then I'm gucci  
Everytime she's looking at me  
She does it cold like smoothies  
Emotions in the movies  
Dreams slowly become lucid  
And the moves we do on earth  
Are the footprints we leave in the dirt  
But is dirt ugly?  
And what is pretty?  
People becoming confused, nah but I'm not guilty  
My emotions mixed  
What emojis on the phone could never fix  
While my motions lit  
I'm coming closer to the top  
I'm feeling it  
Like the first time outside with my favorite outfit  
They can say what the want but I know it fits

We did it  
We moving 'till we finished  
We feeling the vibe  
Got this feeling like I've been right  
Left step but still right  
And all my niggas and ninjas still ride  
Homie still ride

We did it  
We moving 'till we finished  
We feeling the vibe  
Got this feeling like I've been right  
Left step but still right  
And all my niggas and ninjas still ride  
Homie still ride

First you were afraid of it  
Went your own way and never hated it  
I feel like  
I can relate to this  
I'm spending every second, so I can put out all this shit  
I'm living what I'm doing  
Every moment tells a truth  
And even if you don't believe it  
It seems like people slowly moving  
This is the movement  
Things I've been doing give me more senses  
And I know there's nothing bad in loosing  
You've got more chances  
More chances to dance it  
Like a savage  
Fuck niggas hate it  
Do bullshit this is how people invent new shit  
Fuck what they did

You do you don't try to be like anyone on youtube  
You's your best you  
They try to be you  
I know the moves

We did it  
We moving 'till we finished  
We feeling the vibe  
Got this feeling like I've been right  
Left step but still right  
And all my niggas and ninjas still ride  
Homie still ride

We did it  
We moving 'till we finished  
We feeling the vibe  
Got this feeling like I've been right  
Left step but still right  
And all my niggas and ninjas still ride  
Homie still ride

We feeling this vibe  
We feeling this vibe  
We feeling this vibe  
We feeling this vibe

We did it  
We moving 'till we finished  
We feeling the vibe  
Got this feeling like I've been right  
Left step but still right  
And all my niggas and ninjas still ride  
Homie still ride

We did it
