

Work

WizTheMc

This 'bout the work I put in
I'm leaving my sins
I started to sing
From lost to win
I found it in the closest thing
That brings love from above
Love from above
That brings love from above
Brings love from above
Yah yah
Ey
I never stopped
Now I'm taking shots
All the way to the top
They say I can't do nothing
But I'm already up
Is you ready for God
Is you ready or not
Say is you ready for love?
Is you ready for love
Say is you ready for love
Is you ready for love
Say
Today its 782 days
All this rap turns into faith
Never knew what it was
But I escaped the fakes
I was ready to face game
Now I'm moving in the right direction
Nothing to protect me
Every second
I'm writing history
You take a piss of me
While your girl is taking pics of me
You think you get a bit of beef
All I eat is bread and cheese
I ain't got no time for wannabe enemies
Nobody but G.O.D. decides the end of me
I got the recipe
Still won't sign no fucking deal
So get out of here
So get out of here

Its about the work (bout to work)
Its about the work (bout to work)
(Let's work)
Its bout the work
Its bout to work

Its about the work (bout to work)
Its about the work (bout to work)
(Let's work)
Its bout the work
Its bout to work

Its about the work (bout to work)
Its about the work (bout to work)

(Let's work)
Its bout the work
Its bout to work

I'm not hesitant to tell you
Your presence is a present of God
You much bigger than you thought
We went so far
But don't know where we heading
Something big is happening
It started 2 years ago
Before I knew I was an indigo
My flows turnt into flows
Got to bigger shows
Salt city knows
It began with nohomes
Never alone
On the phone for some dough
Tj on the throne
We had to close doors to open new ones
NHMS we the new ones
Now its back to 1
Yeah
We got the sun
I'm an African sun by Mother Earth
Around the corner smoking herb
Chef with the smirk
Ferd with the words
Bert is full alert
We lost the curse
Yuh
We just turnt holy
Like I've never known me
Every word in a verse in some work on this earth
So let's work

So let's work
Let's work
You deserve everything on this earth
So let's work
You deserve
Let's work
Let's work
You deserve
Work
Its about the work
I know its about to work
I know
