It don't matter when  
And it don't matter why  
But I can't forget you  
You stuck in my mind  
Prayed that you wan' spend time  
Wining or dining  
Whatever you want  
You my assignment  
And I'll get you done  
Yeah I'll get you done  
You my assignment  
And I'll get you done  
Trapped in my head like I made that trap  
Back to my bed 'cause I haven't slept  
She getting mad 'cause I really don't text  
And I really haven't met their standards I guess  
Bring back the soul in rap  
Alone in bed  
Showed you love  
Show it back  
Growing up  
Growing past  
Things that I used to have  
Dreams that I used to have

Let it go  
Let it fly  
Take a shot  
And say goodbye  
They said  
I have to leave the past behind  
Let me know where you are  
Know that you always my star  
I've been looking for so long

Now its you in my arms  
You in my arms  
Now its you in

You in my arms  
Putting my truth in your spine and your palms  
Now you the one  
I don't wanna give up on  
Blissed 'til we ask us what's wrong  
I don't think there's a lot going wrong  
I just wanna love you all day long  
Don't think there's a lot going wrong  
I just wanna love you all day long

Let it go  
Let it fly  
Take a shot  
And say goodbye  
They said

I have to leave the past behind  
Let me know where you are  
Know that you always my star  
I've been looking for so long

Now its you in my arms  
You in my arms  
You in
