

I come alive
When I'm faced with a fight
It's the only situation I can ever be on time
And I go wild
Faced with creatures of the night
You feel bad, I make you spooked
But what I see is a scary sight

I fought demons in my head
That's when I was truly scared
But faced with death
I feel powerful, yeah
I fought demons in my head
That's when I was truly scared
But faced with death
I feel powerful, yeah

And I feel fine to leave this world behind
That's the only situation
We can make it out alive
I see tears in your eyes
Fear leaves you paralyzed
But [?] fear spurs me on
It was my blood, it's electro hot

I fought demons in my head
That's when I was truly scared
But faced with death
I feel powerful, yeah
I fought demons in my head
That's when I was truly scared
But faced with death
I feel powerful, yeah
