

# FOOL'S GOLD

Wolf & Bear

Fool's gold  
I can't let it go  
What's enough  
On a crutch  
Rope around your throat  
It's been a minute since I felt like I could just breathe  
Suffocating, bound and waiting  
No one saved me

And when you notice your skin starts to crawl  
Rolled the dice, now you're paying the toll  
Nothing matters when you lose control  
Buying product won't fill up your soul  
Should've seen this coming, thrown across the room  
Empty pill bottle, filled it up with you  
Re-defining my conclusion  
Chemical induced delusion

Forging your name on a letter I wrote  
No one to hate but I can't let go  
Commit to coming clean  
Listen to your heart while you can feel it beat

Sunshine, can we take a couple minutes?  
Are we finished?  
Can it be something I'm missing?  
When there's no good time I can say it (I can say it)  
When there's no good time I can say it (I can say it)

Yeah!  
Locked in my disdain  
Trapped in my old ways  
My comfort zone now gone  
I've been face to face with death  
Had no time to catch my breath  
Been chasing fool's gold

Running and running again  
Crabs in a bucket, my friend  
Praying for something, but nothing happens again and again  
Running and running again  
Crabs in a bucket, my friend  
Praying for something but nothing happens again and again  
Hey, stop, wait  
Take you out on a date  
No balls, call me castrate  
Running and running again  
Crabs in a bucket, my friend  
Praying for something but nothing happens again and again

Forging your name on a letter I wrote  
"No one to hate, but I can't let go"  
"Commit to suffering, lying to yourself, won't ever set you free."  
Set me free

Sunshine, can we take a couple minutes?  
Are we finished?

Can it be something I'm missing?  
When there's no good time I can say it (I can say it)  
When there's no good time I can say it (I can say it)  
Sunshine, can we take a couple minutes?  
Are we finished?  
Can it be something I'm missing?  
When there's no good time, I can say it (I can say it)  
When there's no good time, I can say it (I can say it)

Yeah!  
Locked in my disdain  
Trapped in my old ways  
My comfort zone now gone  
I've been face to face with death  
Had no time to catch my breath  
Been chasing fool's gold

Everybody wants control over your thinking  
Whatchya thinking?  
People started screaming  
Singing as the city burns  
Children sleeping  
Ignored the warnings on the wall  
Run and run again  
Crabs in a bucket my friend  
Pray for something, but nothing's gonna happen again  
Big talk  
Hidden inside a fog  
Get the fuck out the way  
Passive mind, always lost

Fool's gold  
I can't let it go

Sunshine can we take a couple minutes?  
Are we finished?  
Can it be something I'm missing?  
When there's no good time, I can say it (I can say it)  
When there's no good time, I can say it (I can say it)
