Monstro

Wolf & Bear

Stolen piece of gold
It's hanging on by a thread
Met the right girl at the wrong time
Couldn't tell the difference if it ain't right
Your love still has no soul
And I will not be without it

Focus is lost in memory!
Am I gonna be your crutch again?
Overthinking!
Understand
Always has me ready for my thoughts!
Only tying knots to have an end
These stains will not mend!

Lately got me feeling that you're gonna use me, abuse me
And I can't let this go again, you're gonna wear me down
Your love is like a parasite, eluding, consuming
Suddenly it goes away, it's nowhere to be found
(Nowhere to be found!)

Cutting corners never takes the crown
Making excuses in the meantime
Keeping it quiet when the sunlight clouds
Don't you like how it shades you?

And I can't seem to break through
Aiming my sights at you
Despite the perfect weather
Dead weight, their knees to sever
All of the songs we were stood
Open the cage like you should complicate it
Keep me waiting until I'm dead and gone

And I don't want to go alone, yeah
I can't stop what I'm feeling
All my wounds are still in healing
This is just what I needed
Fan away all my demons
Always hear the calling
When I was falling
When I never stand too close
(Do you want me? Do you want me? I don't know)
Wish we never knew this
Living in the moment
Pulling like an undertow
(I don't know)
Looking for a moment
Underneath the surface
Listen to the ebb and flow

Lately got me feeling that you're gonna use me, abuse me
And I can't let this go again, it's gonna wear me down
Your love is like a parasite, eluding, consuming
Suddenly it goes away, it's nowhere to be found

Yesterday I could've sworn you changed, or that it's creeping in

(Everyday it's all the same!)
Yesterday I could've sworn you changed, or that it's creeping in
(Everyday it's all the same!)

And here we go again
And I can't seem to break through
Aiming my sights at you
Despite the perfect weather
Dead weight, their knees to sever
All of the songs we were stood
Open the cage like you should
Ah, would you get it up, feeling up, get it up, feeling up
If I can't seem to break through
Aiming my sights at you
Despite the perfect weather
Dead weight, their knees to sever
All of the songs we were stood
Open the cage like you should complicate it
Keep me waiting until I'm dead and gone
