

## Ghost In My Life

Wolf Gang

Through those gates no turning 'round  
Lovers lost and new ones found  
If stars should guide your life from mine  
Remember me through better times

And I want you to know, that I need you to stay  
Would you try to let go, if I stood in the way  
And I need you to see now, there's no where to hide  
If tonight you should leave as the ghost in my life

Moving in through empty rooms  
The times that bend the world to you  
And I know you think I'm less at fault  
But if I sink or swim I won't give up, I won't give up

And I want you to know, that I need you to stay  
Would you try to let go, if I stood in the way  
And I need you to see, now there's no where to hide  
If tonight you should leave as the ghost in my life  
As the ghost in my life

What do you think about that  
Ooh yeah

And I need you to see now there's no where to hide  
If tonight you should leave as the ghost in my life
