

## Against the Day

Wolf Parade

We were lost on the map  
We marked our path but we can't get back  
And here on the beach  
The night believes it is endless

All is calm now  
Seconds fade but the centuries remain, love  
We are standing  
Against the day  
Against the day

You can walk into town  
See the same old scene always going down  
Along the arcade  
A thousand flowers bloom and fade

All is calm, love  
Every change is a brand upon the brain here  
We are standing  
Against the day  
Against the day

Friend, isn't it so strange  
How the only things that change  
Are the ones upon the surface  
The restless moss upon the grave  
Seems they'll always love the sun  
Seems they'll always need one another  
Seems they'll always turn and run  
At the sight of our blood-covered countenance

All is calm now  
Seconds fade but our hearts will still remain, love  
They are endless

I will empty my head  
Into the night  
Under the gaze of Orion  
Hand into hand  
Together, we'll walk  
Into the jaws of the sun, I know  
All is gone now  
Our only crime  
Was living past our prime, love  
And standing  
Against the day
