

# Am I an Alien Here

Wolf Parade

I had a dream you left me for someone who was mean to me  
So I cried and left for Mexico  
Well I tried to learn to surf by riding a machine I kept beside  
the window  
It was not a good way to be  
It was not a good way to be

I had a dream I was in school, I was learning from the best how  
to overcome my blues  
They said, here's a spider in a bowl, here's Poseidon's white b  
ull  
Now, just pretend you have the right to choose

And I say, am I an alien here?  
Here in the cave of my skull  
Crawling around in the dark  
Dark to the ones I love

Put fodder on the fire, get water from the well  
It's a simple kind of life  
And happiness is easy, it's a story that you tell, it's a teard  
rop in your eye

And I had a dream that he died, and he died, then he died, and  
then mama died too  
And somewhere in the world an evil genius was on the rise  
And then Bowie died, and everyone said  
Oh, what are we gonna do

Am I an alien here?  
Here in the cave of my skull  
Crawling around in the dark  
Dark to the ones I love

Am I an alien here?  
Here in my room
