

Fall Into the Future

Wolf Parade

Oh, fall into the future with me now
Oh, falling like we're falling down the well

3 and 4 and 7 on the wall
Take it as a sign to go ahead
And if you see infinity instead
Wait there for another vision
You could say I've come unhinged
And I would say I don't entirely disagree
But feeling for that rhythm ain't a sin
We've never been the kind to wait for visions

So, fall into the future blind with me
We've never been the kind to lose that rhythm

Oh, falling like we're falling down a well
Oh, fall into the future with me now

We've never been the kind to lose that rhythm
