

Floating World

Wolf Parade

Headlights through my window at night
White light on my baby, alright
But when she comes, she's a stranger to me

I'm lost in the floating world
In the floating world
In the floating world
Beyond this one

I keep a vision of a life that's free
I felt the crows closing in on me
And if my nerves, if my nerves should fail me

I'll stop in the floating world
In the floating world
In the floating world
Beyond this one

If I was
If I was careless
Careless with your heart

The lines on
Lines on paper
Make for only tearing apart

Raised up like an animal
Raised up like a beast
Raised up like an animal

I'm staying up in this little room
Popped the window fashion red and blue

I don't live here, I'm an occupant
I reside in the floating world
In the floating world
In the floating world
Beyond this one

Beyond this
Beyond this
Beyond this one
Beyond this
Beyond this one
