

## Forest Green

## Wolf Parade

Here on Forest Green  
Everyone knows that the life is so serene  
And what's not to love  
Under the sky and the shining stars above  
Stars above

A subterranean life  
I don't get out, don't see much daylight  
I guess the air is sweet  
Familial ghosts come and haunt me in my sleep  
In my sleep  
But I...

Only stay here for survival  
Every day is like the one before, it seems

On Forest Green the lights go dim  
The awful night was creeping in again  
In again  
It's something that you've known since birth  
You understand this place is cursed  
It is cursed  
And it feels like home

It's in the landlord's smile  
The satisfied gaze of the rank and file  
We got the sea and the sand  
We got colonial days on stolen, stolen land  
Stolen land

Farewell to Forest Green  
No more oasis in the Anthropocene  
Only flat black glass  
Under the waves and gone at, gone at last  
Gone at last  
And we...

Only stay here for survival  
Always room for new arrivals on the scene

On Forest Green the lights go dim  
The awful night was creeping in again  
In again  
It's something that you've known since birth  
You understand this place is cursed  
It is cursed  
But it feels like home  
Feels like home  
And I can't stay long
