

Incantation

Wolf Parade

This dream of life, this long night
Singing incantations in the dark
And I'll come to you now, love
Coming down will make my heart
Will make me

I feel this on every street
I walk the earth while you were sleeping
Some will flood, some will drown
The king will not release the crown
We carry on like we were sleeping

This dream of life, on and on
Over and over
I stand and sing it in the dark
Over and over
And calling, calling down
Wasting away

The king he swears all is not lost
But you know these pigs they love the trough
And the coins hit the floor
We were free but we're still poor
We carry on like we were sleeping

This dream of life, on and on
Over and over
I stand and sing it in the dark
Over and over
And calling, calling down
And I'm still waiting

I'll wave this town
No more drowning
So in love
So in love

Remake my heart
Let morning come
Let morning come
Remake my heart
Let morning come
Let morning go
Let morning go
And I'm still waiting
Remake my heart
Let morning come
Let morning come
Remake my heart
Let morning come
Let this morning come
Let this morning come
And I'm still waiting
