Wolf Parade

I wanna love you but I don't know how to begin
I left the city and love came back again
Sometimes I feel I live a thousand lives
And every single version of life was a strange disguise

Weaponized

We watch the world go by from under glass
Blow these little fictions of love to the past
And who's that creeping 'round the palace so late at night
Machine in his house, they're up getting weaponized

Transmit through [?]
Send and receive my own rhythm
There's no one out there
There's only us

I wanna love you but I don't know to do
I love the city night, and came back with you
And it's a strange occupation, got me slipping through time
Come on, never tell me that you're mine, all mine

Transmit through [?]
Send and receive my own rhythm
There's no one out there
There's only us

Reconstruct me and more
Reconstruct me, please
Reconstruct me, give me [?]
There's only us

And am I on again
It's hard to remember
Up in the atmosphere
Above the atmosphere
I saw you looking at the rose
And in the [?]
You could be anyone
I could be anyone

And all these people that you love are hard to remember
When you're floating in above the atmosphere
And I'm [?] again
I'm always feeling you
There's something more than this
Keep us so
Keep our love again
Keep our love again
