Evil Lives

Wolf

I have been turning every stone
And digging deep into the dirt
Where no one goes I have explored
To find the purest core

In the sea of memories I'm immersed
Embryonic stages in reverse
Peeling off the layers of deceit
To find the truth beneath

A devil lives inside me
Touch my head and feel the burn
Evil lives inside
The sky is black within me
Night eternal every day
Evil lives inside

A devil lives inside me
And inside you there's one as well
Evil lives inside
Evil lives inside
Evil lives and evil dies
Evil lives inside
