

## Exit Sign

Wolf

A living lie on repeat  
Too many years of the same old pain  
And believe me, I have seen  
I've seen the enemy inside your eyes  
Not another day in this jail

This is me looking for an exit sign  
To find my way out  
Returning to the nothingness from where we came  
And find my way out

I can't remember yesterday  
And I know tomorrow will be just the same  
I have to watch my every step  
Always make sure to cover my tracks  
Not another day in this jail

This is me looking for an exit sign  
To find my way out  
Returning to the nothingness from where we came  
To find my way out

My mind is made up, this isn't real  
Watching the ground from my balcony  
I shall unite with mother earth  
Spreading my wings as I am falling free  
Not another day in this jail

This is me looking for an exit sign  
To find my way out  
Returning to the nothingness from where we came  
And find my way out
