

## Love At First Bite

Wolf

Slithering, sliding  
Outside your bedroom door  
Something is creeping  
It's seeking to devour

Don't be afraid of the dark  
You need just to close your eyes  
The viper's erect and it's ready to strike  
That's when you know

Love at first bite  
First bite

My tongue is slick  
And it's licking your wicked body  
You're writhing and moaning  
But you don't want to stop me

Don't be afraid of the dark  
You need just to close your eyes  
The viper's erect and it's ready to strike  
That's when you know

Love at first bite  
First bite

Slithering, sliding  
Outside your bedroom door  
Something is creeping  
It's seeking to devour

My tongue is slick  
And it's licking your wicked body  
You're writhing and moaning  
But you don't want to stop me

Your first bite  
It's your first bite  
First bite  
You'll never forget your first bite

It's where I belong - Under your skin  
Inside of you - I'll let myself in

The first bite  
The first bite  
The first bite  
You'll never forget your first bite
