

# Shadowland

Wolf

When the darkness eats the twilight  
And the road I walk disappear in the night

Have you seen?  
Have you seen my shadow?  
Have you seen?  
Have you seen my shadow?

Look out!

In my quest for something real  
I found a lost reality in a dream

Have you seen?  
Have you seen my shadow?  
For I've seem to have lost my shadow

In Shadowland  
My Shadowland

Out of touch I wander like a ghost inside my mind  
To myself an alien who's looking for his kind

If you see me walk in twilight  
See the shape of me disappear in the night

Have you seen?  
Have you seen my shadow?  
Come with me  
You can be my shadow

In Shadowland  
My Shadowland
