

# Into Eternal Darkness

Wolfchant

Welcome on  
Our journey to delight  
A darkened trip  
Onto the other side

Step into the dark  
Beyond all mind  
And dare a glance  
Into the heart  
The heart of the night

Here, beyond  
Above is below  
Demons and gods  
Where golden rivers flow  
Beyond here  
Below is above  
The spheres of madness  
They glow

Into eternal darkness  
Where endless shadows rise  
Unleash the force  
Of fire and ice  
Into eternal darkness  
Beyond all eve and dawn  
Unleash the force  
Of fire and storm

Yeah

Follow the trail  
On a cosmic quest  
The gates of infinity  
Open wide

Break the borders  
Of reality  
Chaos is the law of life  
Existence and death

(Here, beyond)  
Above is below  
Demons and gods  
Where golden rivers flow  
Beyond here  
Below is above  
The spheres of madness  
They glow

Into eternal darkness  
Where endless shadows rise  
Unleash the force  
Of fire and ice  
Into eternal darkness  
Beyond all eve and dawn  
Unleash the force

Of fire and storm

Evoke the flame  
(Evoke the flame)  
It's time to rise  
(Time to rise)  
All good and evil  
All truth and lies  
Creation and doom  
(Creation and doom)  
So close at hand  
(Close at hand)  
Predator, prey  
Beginning or the end

Here, beyond  
Above is below  
Demons and gods  
Where golden rivers flow  
Beyond here  
Below is above  
The spheres of madness  
They glow

Into eternal darkness  
Where endless shadows rise  
Unleash the force  
Of fire and ice  
Into eternal darkness  
Beyond all eve and dawn  
Unleash the force  
Of fire and storm

Fire and storm  
Fire and storm  
Fire
