

New Born Killer

Wolfchant

This is the way I go this is the path I follow
No one can stop me now
No one can hold me I have no fear
I have no fear I stand proud
stand proud

What is right and what is wrong
Should I stop or carry on
Should I speak or save my words
This is what you told me
Where to go and where to stop
Should I smile or should I cry
Where to kneel and where to stand
This is what you told me

But I broke my chains
And I stand free
I'm too strong now
There is no master to see

I am the force I am your war
I am your enemy I am your dead
I am the knife at you throat
I am the bullet in your head
I am your evil I am your dead
You will never change my mind
It is easy to say I do what I will
But it's hard to make it come true

So be your own god and awake from your deep sleep
So be your own god awake from your sleep

I am what
You made me to be
So here where I am
No blood is to see
I am what
You made me to be
To turn in my eyes
No blood is to see

I am what
You made me to be
So here where I am
No blood is to see
I am what
You made me to be
To turn in my eyes
No blood is to see

This is the way I go this is the path I follow
No one can stop me now
No one can hold me I have no fear
I have no fear I stand proud
stand proud

Now I know whats right or wrong

I never stop I carry on
I speak I tell what is the truth
And no one will stop me
I know where to go I know my place
My mind is free to see
Where I have to fight I have to stand
Now I know it is you

But I broke my chains
And I stand free
I'm too strong now
There is no master to see

I am what
You made me to be
So here where I am
No blood is to see
I am what
You made me to be
To turn in my eyes
No blood is to see

I am what
You made me to be
So here where I am
No blood is to see
I am what
You made me to be
To turn in my eyes
No blood is to see

This is the way I go this is the path I follow
No one can stop me now
No one can hold me I have no fear
I have no fear I stand proud
stand proud

I am what
You made me to be
So here where I am
No blood is to see
I am what
You made me to be
To turn in my eyes
No blood is to see

I am what
You made me to be
So here where I am
No blood is to see
I am what
You made me to be
To turn in my eyes
No blood is to see
