

# Sacrifice

Wolfchant

[I.]

Now I sit here in chains - helplessly and alone  
Betrayed from the best friend used as a pledge  
Uziel prepares its men to ride against my father  
Oh Odin, I failed and we going to loose

Hopefully the soldiers I sent  
Reached my father in time  
So that they can warn him  
To the barren field we will ride  
My fate is decided I have to die  
My fate is decided I die

[Chorus:]

Falcons fly high in the sky  
Once time still so free like them  
Im here so small and alone  
Oh father i will brake out will brake out

[Bridge:]

Uziel you damned  
I will prevent your plan  
You will be surprised  
Our land will never be yours

Now we meet us  
In the barren fields  
I sit on my horse  
Guarded the last time  
(Ready to die)

[II.]

Odin father give me the power  
To fight the last time for my land  
Into a lance I will fall to kill myself  
Everywhere is blood I see the falcons fly  
Blackness surrounds me and I feel so cold  
My heart stop pounding the last story is told  
Every breath is a pain, I close my eyes  
I begin to fly and the falcons cry
