

## Forge with Fire

Wolfheart

Assemble and build  
From the ore of the ground  
Isolate the iron from the stone

Let the fire fill the mold  
The shape of the blade  
Poured into the clay

Let the fire forge

The hammer strikes  
One thousand times  
Use the fire's force  
Black flame of power

Let the hammer rise  
One final time  
Use the water's force  
To cool the searing core

Sharpen and grind  
So that the edge of the blade  
Will cut through the flesh

Balance and weigh  
Find the line for the strike  
Target the damage  
Inflict the pain  
Wreak the destruction

The hammer strikes  
One thousand times  
Use the fire's force  
Black flame of power

Let the hammer rise  
One final time  
Use the water's force  
To cool the searing core
