

Reaper

Wolfheart

Witness the power harnessed for destruction
For total annihilation
Behold the wrath that storms through these lands
Rage where two nations collide

With flames of the rage
Let the fire burn them down
Courageous and cruel
Hammer them to the ground
Push the fear aside
The reaper comes for them who rise
Against your brothers
Eye for an eye

Facing an enemy
Greater in numbers
Superior in arms
Facing an enemy
Overpowering and grandeur
Superior in arms
But never in heart

Stare through your crosshair
Take down everything that you get on your sight
Pull the pin and hurl the grenades
Wave after wave
Defy their assault

In the veil of the night
In the shelter of the dark
Aim behind the enemy line

Facing an enemy
Greater in numbers
Superior in arms
Facing an enemy
Overpowering and grandeur
Superior in arms
But never in heart

But never in heart
But never in heart
