

## Skyforger

## Wolfheart

Great star of the north  
Uphold the iron sky  
Hammered by the primordial god  
Skyforger so powerful  
Even the strongest steel obeys  
Guide the wanderers to the northern gate

Bring forth the winds  
Cold breeze that summons the waves  
Lead us through the darkest seas  
The endless waters  
To the shores afar

Bring forth the winds  
The breeze in our sails  
Lead us through the freezing seas  
The arctic waters  
The frozen shores  
Realm of the demon  
Four arrows is a mark of the god of war

Far north in the center of the earth  
White waters of the underworld  
Across the cold stream of death  
Black river from where there's no return

Bring forth the storm  
Summon the gale and fill these sails  
Guide us pass the maelstrom  
Shield our journey  
Save us from the abyss  
Save us from the deep
