

## The Hammer

Wolfheart

Last one against a legion  
Brigade of death marches ahead  
Reload and aim higher  
Dig deeper into your tomb  
Underneath the cannon fire

In the eye of the storm  
Dead silence  
Rise of the final dawn  
Dawn of the violence

Frozen soil where the blood of your brothers  
Runs cold  
Runs red on the ground

Never surrender  
Never retreat  
The last defender  
The hammer of the north  
Never surrender  
Never retreat  
The last defender  
The hammer of the north

In the eye of the storm  
Dead silence  
Rise of the final dawn  
Dawn of the violence

In the eye of the storm  
Dead silence  
Rise of the final dawn  
Dawn of the violence
