

Black Machine

Wolfsbane

Roll into the time of tepid resistance
Riding through right into the distance
Considering what might have been, like a two time loser
When I'm riding up to get a piece of the future

Sometimes, it's a little world
It's for the same surprises
Sometimes, it's a little world
It's all for the compromises

You face a lead and this machine in the thirties
And instincts and the ????
Tried to thank many of the people to the fotion
Changing yourself to a bush so you can never have emotion

And it's a one-stop shot the ordity
I'll be on a black machine
It's a one-stop shot the ordity
I'll be on a black machine

Riding free

Tragic comic, ??????????????????
To the fools who are trying to ????
????????????????????????????????
????????????????????????

Sometimes, it's a little world
It's for the same surprises
Sometimes, it's a little world
It's all for the compromises

And it's a one-stop shot the ordity
I'll be on a black machine
It's a one-stop shot the ordity
I'll be on a black machine
