

# Blue Sky

Wolfsbane

I'm headed for the blue sky, you don't even know why  
You're so happy in your rain cloud, and it's really getting me down  
I just can't be around you, coz you're dragging me down, too  
You are living in your white lie, so I'm headed for the blue sky

Headed for the blue sky  
Headed for the blue sky  
Headed for the blue sky  
Headed for the blue sky

I'm gonna ride and ride all day, I'm gonna ride and ride all night  
I'm gonna ride until it's light, I'm gonna leave this all behind

You can't find what you look for, so you found a world war  
Where every one is against, because you know more than they do  
I just can't even be around you, because you're dragging me down, too  
You are living in your white lie, so I'm headed for the blue sky

Headed for the blue sky  
Headed for the blue sky  
Headed for the blue sky  
Headed for the blue sky

I'm gonna ride and ride all day, I'm gonna ride and ride all night  
I'm gonna ride until it's light, I'm gonna ride and ride all night  
I'm gonna ride and ride all day, I'm gonna ride and ride all night  
I'm gonna ride until it's light, I'm gonna leave this all behind

The arrogant self destructive attitude  
Is something that you decided you could use  
To justify hating everybody else  
Is okay because you hate yourself

I just can't be around you, coz you're dragging me down, too  
You are living in your white lie, so I'm headed for the blue sky

Headed for the blue sky  
Headed for the blue sky  
Headed for the blue sky  
Headed for the blue sky

I'm gonna ride and ride all day, I'm gonna ride and ride all night  
I'm gonna ride until it's light, I'm gonna ride and ride all night  
I'm gonna ride and ride all day, I'm gonna ride and ride all night  
I'm gonna ride until it's light, I'm gonna leave this all behind

Headed for the blue sky  
Headed for the blue sky  
Headed for the blue sky  
Headed for the blue sky

I'm gonna ride and ride all day, I'm gonna ride and ride all night  
I'm gonna ride until it's light, I'm gonna leave this all behind

I'm gonna ride!
