

Buy My Pain

Wolfsbane

You take my picture and you steal my soul
You say you love me but you want complete control
Tell me why?

Titillation for your bourgeois fantasy
You're just a whore just another piece of meat
When you're bought and sold you're never gonna be free
Tell me why?
Tell me why?
Tell me why?

See my pain, feel my pain, buy my pain
See my pain, feel my pain, buy my pain
See my pain, feel my pain, buy my pain
Buy my pain, buy my pain

They want to crucify me
They want to crucify me
They want to crucify me
They want to crucify me
Worship youth cause you cannot stand decay
I wanna feel the pain don't wanna fade away
Fade away
Crucified in the name of rock and roll
A golden God but I had to sell my soul
Well I hate
But I still want it all

Tell me why?
Tell me why?
Tell me why?

See my pain, feel my pain, buy my pain
See my pain, feel my pain, buy my pain
See my pain, feel my pain, buy my pain
Buy my pain
Buy my pain
Buy my pain

They want to crucify me
They want to crucify me
They want to crucify me
They want to crucify me
