and you're sitting in your room
enjoying entertainment
and you're watching tv
colours bright and so enchanting

you couldn't be near her wouldn't hear what annie says when annie's sad you couldn't be near her wouldn't hear what annie says

and your waiting for your daily thrill impatiently ... to collect it for your private horror show and you're watching moving shadows live instead of you ... and you ... you don't know that annie's living next to you

jesus christ we love you so since we saw your tv-show suicidal tendencies, but no will to interfere feel it coming over you ... indifference ... indifference ... choosing channels watching news ignoring annie's point of view

you couldn't be near her wouldn't hear what annie says when annie's sad you couldn't be near her wouldn't hear what annie says

you couldn't be near her wouldn't hear when annie laughs
... when annie laughs
you couldn't be hear her wouldn't feel that annie ... annie ... annie loves
