

# All Tinted

Wolftyla

Let the music play  
Summer's on the way  
You know that I need more better days  
So I won't make you stay  
You should put your trust in me  
Trust in me, trust in me  
I won't ever let you down  
Let you fall, let you drown  
Even with my lies  
I stay on your mind  
Go 'head take your time  
Don't go switching sides

Hard to find somebody real in the summer time  
And I just might put my trust in you  
If we make it out the summer  
You'll get all my time  
So lets just ride just me and you

All tinted in the coupe  
Got the stars in the roof  
Tell me what you tryna do  
Cause I've been thinkin' bout you

All tinted in the coupe  
Got the stars in the roof  
Tell me what you tryna do  
Cause I've been thinkin' bout you

It's just Summer, Summer time  
Lets just try and catch a vibe  
Oh let's just do it  
Don't over think it  
Got your hands all on my waist  
Two step while the record plays  
Don't keep me waiting  
I get impatient  
Impatient for love

Hard to find somebody real in the summer time  
And I just might put my trust in you  
If we make it out the summer  
You'll get all my time  
So lets just ride just me and you

All tinted in the coupe  
Got the stars in the roof  
Tell me what you tryna do  
Cause I've been thinkin' bout you

All tinted in the coupe  
Got the stars in the roof  
Tell me what you tryna do  
Cause I've been thinkin' bout you
