

Here For It

Wolftyla

Bet you didn't think I would clock in early for you
Been on my job to put in overtime while I working for you
Cause can be more than this don't want to do more of this
Yeah, we already took a tour of this
No more playing games you know I'd forfeit for you
So lets not waste time, come grab me by my lips straight out the gate line
You know what it is, you know I'm here for it
You know I'm here for it
You know why I'm here, you know I'm here for it

Come and talk to me I really want to see you babe
I really want to say your name
Cause you look so sexy, you really turn me on
Blow my mind every time I see your face

I heard you need somebody
Well I'm tryna be that body
But say you need nobody
Well I say you need somebody
Cause I cannot leave you alone
Imagine what we do alone
Two or three times that's what we call the zone
Feels like I'm high how my mind is so blown, mind is so blown

So lets not waste time, come grab me by my lips straight out the gate line
You know what it is, you know I'm here for it
You know I'm here for it
You know why I'm here, you know I'm here for it

Come and talk to me I really want to see you babe
I really want to say your name
Cause you look so sexy, you really turn me on
Blow my mind every time I see your face, oh
