

More Love

Wolftyla

Take a deep breath
That's what I tell myself, I tell myself
To keep us hanging by the thread
You broke me down
I'm bleeding out cause I fell for a nigga who don't know what h
e want
I should have known, I should have known
Am I asking for too much? I guess that I'm asking for too much

Little more time
Little more love
Little more you
Little more us
Little more time
Little more love
Little more you
Little more us

Little more love
Little less time at the club
I don't want to fuss but keep fucking with me and you end up a
dub
Give a little more fucks, little more trust
Or maybe I'm thinking too much cause
I'm tired of niggas who don't know what they want
I should have known
I should have known
Am I asking for too much?
I guess that I'm asking for too much

Little more time
Little more love
Little more you
Little more us
Little more time
Little more love
Little more you
Little more us
