

# Play For Keeps

Wolftyla

Play for keeps, keep me in mind  
When you're out there in the streets, we got soul ties  
Gotta make it home to me, you ain't mine but you're mine, ten toes deep  
Pull my pride aside for you, push it to the side for you

I'm gon' keep you up all night until the morning  
Open up to you and only you when I got options  
Gotta keep you close 'cause I'm starting to feel a way  
Tell me, tell me

So do you see things how I see it?  
When I'm off that drink, don't be heartless  
And it's you for me, you keep me honest  
On a late night, got the top down, are you around?

You gon' slide or what?  
Are you mine or what?  
You gon' slide or what?  
Are you mine or what?

Been the one stuck on you  
They don't want more of you  
Ride or die for you  
I belong to you  
And I tell 'em every time  
I'm ride or die for you  
One thousand miles for you  
I belong to you

Got me saying don't stop over and over and over again  
All that back and forth waste time you can do it with your friends  
No I ain't like your ex that used to do you dirty  
I won't play childish games and I won't let you hurt me

So do you see things, how I see it  
When I'm off that drink, don't be heartless  
And it's you for me, you keep me honest  
On a late night, got the top down, are you around?

You gon' slide or what?  
Are you mine or what?  
You gon' slide or what?  
Are you mine or what?

Been the one stuck on you  
They don't want more of you  
Ride or die for you  
I belong to you  
And I tell 'em every time  
I'm ride or die for you  
One thousand miles for you  
I belong to you

Been the one stuck on you  
They don't want more of you  
Ride or die for you  
I belong to you

And I tell 'em every time  
I'm ride or die for you  
One thousand miles for you  
I belong to you

I belong to you
