

## red flags

Wolftyla

Tired of the back and forth  
I think we already know  
That when you play games  
I'm two steps ahead  
Cause I've seen this all before  
So I rather just let you go  
I rather just let you know  
That I'm fed up  
I deserve better

If I ignore your baggage  
With all of your bad habits  
It would only cause more damage  
If I try to understand it  
I don't want attachments  
No contact, never planned it

I don't need any of your red flags  
Every time I see you that's a red flag  
Crashing out that's a red flag  
Oh oh oh  
Red flags  
Every time I think about you  
Red flags  
Trying to save you is a red flag  
Oh oh oh  
Wasted time when it comes to you  
No reasoning for the things you do  
I love my peace can't be confused  
Made it easier to choose

Me me me me me me  
I had to choose me  
Wait  
I love my energy  
Wait  
I let you go and now I feel

Free free free free free free  
I had to let it be  
Wait  
I got my clarity  
Wait  
Now all I see are your

Red flags  
Every time I think about you red flags  
Crashing out that's a red flag  
Love bombing that's a red flag  
Mixed signals that's a red flag

Red flags  
Every time I think about you red flags  
Trying to save you is a red flag  
Oh oh oh  
Red flags every time I think about you  
Red flags

Crashing out is a red flag

Red flag

Every time I think about you red flags

Trying to save you is a red flag

Oh oh oh
