

Love it when you're with me
Bubble gum pop
It's sticky, sticky
Hold me close and
Kiss me
Miss me
Cupid's arrow it just hit me
Hit me
I'd give you everything
Your love is good for my soul
Baby, baby saranghaeyo [사랑해요]

You know you're my baby
Drive me crazy
You know that it don't phase me
I can't stop loving you
And everything you do cause
I see all the signs
Ohhh

You're my favorite view
Fell from heaven that's my cue
To give you my time
Let's go see the world
You got me in the mood
Stuck to you like some glue
Drunk off you like soju
This love is a break through
Ooo

I've been searching for you
That's just the truth
I'm falling
Waiting for you
Nothing to lose
I'm all in
If I had to choose
Ooo life in every moment with you
I only feel this with you

I love when you keep it real
You're my seoulmate
I know that we're having fun
About my love I don't play
I know how to make you stay
Infinity the long way
You know that my love is deep
Don't want nothing in between us

Love it when you're with me
Bubble gum pop
It's sticky, sticky
Hold me close and
Kiss me (kiss me)
Miss me
Cupid's arrow it just hit me (hit me)
I'd give you everything

Your love is good for my soul
