

updown

Wolftyla

Say you on the way
Last night was rough but we gon fix it up today
We make mistakes but I don't leave you wanna stay
Baby you know me so just hold me and don't let go

Nobody gets me like you
You really put me in a mood
I'm thinking that you need to pull up put it right down
Come here right now
Up down up down
Nice and slow

(Ayyy)

You're the only one
Even when its ugly
Love me
Highs and lows

(Ayyyy)

It's the both of us
When we going
Updown updown
Nice and slow

Up down up down
Up down up down

When we going
Updown updown
Nice and slow

When I'm with you
Waking up the neighbors late at night
Its nothing new
If feels good with you after a fight
Its just the truth
Even when its messy
We gon always make it through

Nobody gets me like you
You really put me in a mood
I'm thinking that you need to pull up put it right down
Come here right now
Up down up down
Nice and slow

(Ayyy)

You're the only one
