

Wednesday

Wolftyla

Step up in the spotlight
Know tonight is my night
You know we 'bout to turn it up
Bout to call my girl like right now
She 'bout to pull up to the spot with the crew
Long hair, diamonds, red bottoms on her shoes
Music 'gon be blastin' in the background...
Shut the party down in my town

I'm throwing a party this Wednesday
Everything is all on me
Everything is all on me
Everything is all on me
Everything is all on me

Everything on me, on me
Party going up in the middle of the week
So bring your shawties and bring your homies cause
Sitting home gon' leave you lonely for the night
Step up in the spotlight, I'm feeling myself
We party, we party
Til six in the AM
Next week we back here again like...

I'm throwing a party this Wednesday
Everything is all on me
Everything is all on me
Everything is all on me
Everything is all on me

It's my party I could cry if I wanna
We ain't got no problems, oh no I'm sorry
Dressed in designer, dressed in Bulgari
Dressed in all black we looking' like some stars we
Dressed like girls that you wanna see
Party look like somewhere you wanna be
On a #WolfWednesday you know where I be
Don't I look like a girl you put in a ring
So put a ring on it, baby, put a ring on it
And if you likin' what you see then put a ring on it
So turn, up the volume, turn it up the loudest
Me and my girls we turnt out the party!

I'm throwing a party this Wednesday
Everything is all on me
Everything is all on me
Everything is all on me
Everything is all on me
