I'm up and I'm leavin' and you want to know why  
You want to know why I act this way  
All I gotta say is...

You ain't shit  
You ain't it  
And I been lit  
Imma stay lit

You ain't shit  
I been lit  
I changed you but you ain't shit

All the messages just came through  
All of my wishes just came true  
All of the bitches that I suspected you was texting on the low  
Screeshotted them pictures just came too  
You can't deny it  
Don't even try it  
This shit ain't good for me  
Fuck out my diet. I thought we was vibing  
Why you so silent?

That thottie of the gram got you sprung little nigga  
All them extra bitches on the sideline  
They was on the side for a reason now you done little nigga  
You one of them now  
I wish that this was all just pretend now  
Don't hit me with that lets try again now  
Never thought that this here would end now  
I always stayed ten down  
Don't think that we could be friends now

You ain't shit  
You ain't it  
And I been lit
