

Hibernator

Wolverine

Daydream - life passing by
Slumber - losing time
Live in hibernate state
Hover above the ground

Path was clear
I reached for stars
But harmful light blinded my eyes

There's a morn outside laws of night and day
But I am not awake
Not awake to see this morning dawn

Find the dawn beyond the sands of time
Hours alone cannot design or alter your mind

Sinking
Failing
Drowning
Dams have burst
Help me
Save me
Oceans overflow

Realized
Delusions prevailed
Recognized
I harbored a pain

But how do I suppress what beckons in the night
End this darkened sun, nested at the heart of my soul

Find the dawn beyond the sands of time
Hours alone cannot design or alter your mind

Find the dawn beyond the sands of time
Hours alone cannot design or alter your mind
Find the dawn beyond the sands of time
Hours alone cannot design or alter your mind
