

Man or beast

Wolverine

There's a westelands
Deep within my soul
Need to know why they have to
Witness only war
Been down too long
Only devil knows
I've crushed the holy temples
and finally let her go...

I've been searching for an answer
For those guides long long years
I need to know if I'm a Man
Or if I'm a Beast
I've been laying by your side
And I kissed your poison face
I always knew I would descend
from grace

Bow down before me
Go within your past
Seek all the naked truth
And watch out for your back
I've seen you're crying
But I have to leave
There is no place for me
No realm of tears and grief

I've been searching for an answer
For those guides long long years
I need to know if I'm a Man
Or if I'm a Beast
I've been laying by your side
And I kissed your poison face
I always knew I would descend
from grace
