

# SMOKE (False Devils)

Wolves At The Gate

Your words cut me deeper  
They're sharper than steel  
My tongue fills with fire  
Burning me to the bone  
Flames ignite  
Tongues ablaze  
Smoke devours

Poison and smoke, breathe it all in  
Breathe in  
Cutting off my lungs  
Ticking time bomb, you're running out of time  
Time is running out

Hide my flaws  
In silence I decay  
Blowing smoke  
My bones just waste away

Blame it on the false  
Blame it on the false devils  
Speak in foreign tongues  
Fire in your lungs  
Fill with smoke  
(Blame it on foreign devils)  
'Til fire fills your eyes with smoke

Cutting off my lungs

I take a breath and then I let it all out, ahh  
The gaslight poisons and it fills me with doubt, so  
When the smoke clears, I am left with what I see  
The truth reveals this cold reality

Hide my flaws  
In silence I decay  
Blowing smoke  
My bones just waste away

Blame it on the false  
Blame it on the false devils  
Speak in foreign tongues  
Fire in your lungs  
Fill with smoke  
(Blame it on foreign devils)  
'Til fire fills your eyes with smoke

Poison and smoke  
Breathe it all in, breathe in  
Poison and smoke  
Breathe it all in, breathe in  
Your words cut me deeper  
They're sharper than steel  
My tongue fills with fire  
Burning me to the bone

Ah, ah

My heart rots  
(Tangled up in knots)  
Bones waste away

Blame it on the false  
Blame it on the false devils  
Speak in foreign tongues  
Fire in your lungs  
Fill with smoke

Blame it on the false  
Blame it on the false devils  
Speak in foreign tongues  
Fire in your lungs  
Fill with smoke  
(Blame it on foreign devils)  
'Til fire fills your eyes with smoke  
Eyes with smoke  
'Til fire fills your eyes with smoke

I can't hide it now  
I can't see  
The smoke has filled the air  
It's killing me  
Killing me  
I can't hide it now  
I can't see  
The smoke has filled the air
