

BLUE

WONHO

I'm drowning down into the blue, it feels amazing
Swimming high up to the sky, am I going crazy?

Darling I can't get enough, higher up above
Everyday like dejavu, yeah I'm addicted uh

Wanna dance, wanna dance, wanna dance
And feel the ocean
Come along we'll be dancing the night away
Come into my dreams

Let me show you the way to my dreams
You're getting close
Take my hand, let me know when you're ready
It's all in the blue

Cuz you and I together
We'll be diving in the ocean
Spend the night away
You know we'll get a little out of control
Can you feel the blue?

We can feel it everywhere
Just you and me together
Deep inside the blue
You know we'll get a little out of control
Can you feel, feel the blue?

I get the fever even when I'm in the water
Because you shine on me like sun over the ocean

We'll be surfing in the waves, feeling good, so high
Everyday like dejavu, yeah I'm addicted uh

Wanna dance, wanna dance, wanna dance
And feel the ocean
Come along we'll be dancing the night away
Come into my dreams

Let me show you the way to my dreams
You're getting close
Take my hand, let me know when you're ready

Cuz you and I together
We'll be diving in the ocean
Spend the night away
You know we'll get a little out of control
Can you feel the blue?

We can feel it everywhere
Just you and me together
Deep inside the blue
You know we'll get a little out of control
Can you feel, feel the blue?

We are young, we are dumb
We'll just party all night long

When you feel

We are young, we are dumb
We'll just party all night long
When you feel, feel the blue

Into the blue
You and me together, together woah

We are young, we are dumb
We'll just party all night long
When you feel

We are young, we are dumb
We'll just party all night long
When you feel, feel the blue

We can feel it everywhere
Just you and me together
Deep inside the blue
You know we'll get a little out of control
Can you feel, feel the blue?
