WONHO

All of my friends getting wasted
All of the lights slowly fading
I'm running out of patience
Someone get me out of here

I was so blind then I found you
Right in the moment our eyes met
You said you'd never let go
One step at a time getting closer

Girl you wanna promise
I don't wanna be all by myself
Come close, come close, come close
All I need, I need, I need

Never need another heartbreak
I don't wanna be all by myself
Come close, come close, come close
Cuz you're all I need, I need

On the merry go round we're slowly dancing
All of the stars getting closer
Oh I just wanna hold you
I just wanna love again

I was lost till I found you
We'll make the night last forever
You said you'd never let go
One step at a time getting closer

Girl you wanna promise
I don't wanna be all by myself
Come close, come close, come close
All I need, I need, I need

Never need another heartbreak
I don't wanna be all by myself
Come close, come close, come close
Cuz you're all I need, I need

Know you're my last love
I just wanna hold you
I just wanna hold you
One step at a time getting closer

Girl you wanna promise
I don't wanna be all by myself
Come close, come close, come close
All I need, I need, I need

Never need another heartbreak
I don't wanna be all by myself
Come close, come close, come close
Cuz you're all I need, I need
