Losing You

WONHO

Hold me closer
Don't let me go over
Hold me closer

Umm lock it away
Keep my heart at your place
Pull me closer

Coz anytime or place I'd be your shield
When you feel
Like you ain't got the fight in you to heal
And when you're weak in defeat
I need you to know

Baby I would go to war for you
Build an army if you need me to
Coz losing me is better than losing you

Don't you know that I would die for you
If I knew that you would make it through
Coz losing me is better than losing you

Fast car and no breaks
You're the rush that I crave
Drive me insane

Coz you're the air inside my lungs
Suffocating when you're gone
I'm a mess and it's all wrong without you here
Oh nothings clear
And I need you to know

Baby I would go to war for you
Build an army if you need me to yeah
Coz losing me is better than losing you

Don't you know that I would die for you
If I knew that you would make it through
Coz losing me is better than losing you

It's better than losing you
You, you, losing you

Baby I would go to war for you
Build an army if you need me to yeah
Coz losing me is better than losing you

Don't you know that I would die for you
If I knew that you would make it through
Coz losing me is better than losing you

It's better than losing you
You, you, losing you
