

Open Mind

WONHO

I'm letting you know that I want you baby
So many girls but there's just one lady
Closer than close I wanna be your shadow
Wherever you go just lead the way I'll follow

Let's do the things that we can't say
I'm talking 'bout now girl let's not wait
Don't you want somethin' different?

Ooooo aaaaaa
You don't have to love me
Ooooo aaaaaa
Cause we want the same thing
Tell me your desires
And I'll bring 'em all to life
For just one night
Keep an open mind girl

It's obvious you're the only one that matters
We're talking for now but we can do that after
Somethin' I got that your life's been missing
When I felt the heat
I couldn't keep my distance

Let's do the things that we can't say
I'm talking 'bout now girl let's not wait
Don't you want somethin' different?

Ooooo aaaaaa
You don't have to love me
Ooooo aaaaaa
Cause we want the same thing
Tell me your desires
And I'll bring 'em all to life
For just one night
Keep an open mind girl

Oh you and I
We'll go from zero to a hundred in one night
(Keep an open mind girl)
Oh you and I
Let's go from zero to a hundred in one night
(Keep an open mind girl)

Ooooo aaaaaa
You don't have to love me
Ooooo aaaaaa
We both want the same thing
Tell me your desires
And I'll bring them all to life
For just one night
Keep an open mind girl

Oh you and I
We'll go from zero to a hundred in one night
(Keep an open mind girl)
Oh you and I

Let's go from zero to a hundred in one night
(Keep an open mind girl)

Keep an open mind girl
