

WENEED

WONHO

Feeling a little lost from this broken world
I miss the memories with you
I met you end of summer, seems like it's been forever
You know I can't live without you

'Cause we need each other
Like stars and the night sky
Shining so bright, yeah
We'll light up the night
'Cause we need each other
And you're my only one
You keep me alive
Promise to hold you so tight
Yeah, I'll never let go

Oh-oh, ooh whoa, I promise you
Oh-oh, ooh whoa, oh, you and I
Oh-oh, ooh whoa
Forever and ever, forever and ever

Even in the darkest times
You were the one pulling me through
My all and everything, oh oh
And every piece of you will light up my universe

'Cause we need each other
Like stars and the night sky
Shining so bright, yeah
We'll light up the night
'Cause we need each other
And you're my only one
You keep me alive
Promise to hold you so tight
Yeah, I'll never let go

Oh-oh, ooh whoa, I promise you
Oh-oh, ooh whoa, oh, you and I
Oh-oh, ooh whoa
Forever and ever

When I'm back on the stage and sing this song
Will you be there for me again?
Be there for me
Will you be there?
When I'm back on the stage
Can you wave your hands again?
This song's for you
Can you sing it along?

'Cause we need each other
Like stars and the night sky
Shining so bright, yeah (Shining so bright)
We'll light up the night (Shining so bright)
'Cause we need each other
And you're my only one (My only one)
You keep me alive (No)
Promise to hold you so tight (Tight, yeah)

Yeah, I'll never let go

I promise you

You and I

Forever and ever

'Cause we need each other

'Cause we need each other

'Cause we need each other

Forever and ever, forever and ever
